BOARD OF SUPERVISORS

WHEREAS, at the time of the final approved CD 1977 Budget, it was assumed that re-designation of the Upper Ashbury area through the Department of City Planning's "Environmental Impact Report/Study" and associated "Public Improvement Package" would be approved by the Board of Supervisors prior to the start of the 1977 CD RAP program slated to be February 1, 1977; and

WHEREAS, the RAP program has budgeted Expenditure Savings in the form of salaries, fringe benefits and other associated operational expenses because of these excessive delays in the start-up of the Upper Ashbury program, as well as, under Equipment purchases with the initiation of the State of California's contracts, RAP has obtained a 15% savings in relationship to budgeted "price quotes" from the City's vendors; and

FILE NO. 12-27-78 RESOLUTION NO. 576-79

SUPPORTING AB 884, ADDING CHAPTER 4.5 TO DIVISION 1 OF TITLE 7 OF THE GOVERNMENT CODE, RELATING TO DEVELOPMENT PROJECTS.

WHEREAS, AB 884, introduced by Assemblyman Leo McCarthy, is designed to streamline the existing project approval process which has been criticized as being cumbersome and time-consuming; and

WHEREAS, Existing law contains no provisions governing the review and approval of development projects by public agencies; and

WHEREAS, AB 884 adds a new chapter to the Government Code which establishes a timetable for approval of development permits as follows:

By June 30, 1978, state agencies must make available to all applicants for development permits a detailed statement of the information required in connection with an application.

After receipt of an application, the agency has 30 days to decide whether the application is complete. If the application is not complete, the agency must indicate, specifically, the missing information.

A lead agency, i.e., the agency with primary responsibility for approving the total project, has one year after the receipt of an application to approve or disapprove the project. A responsible agency, i.e., the agency with responsibility for approving only a portion of a project, has up to six months after lead agency approval of a project to approve or disapprove its portion of the project. If a development project requires approval by more than one agency, the Office of Planning and Research must consolidate the necessary hearings.

Failure to act within the required time limits is deemed approval of the development project. With consent of the applicant and the public agency involved, the time limit may be extended by 90 days. Contested water rights permits before the State Water Resources Board are excluded from time constraints; and

WHEREAS, AB 884 makes the following changes in procedures for preparing environmental impact reports (EIR's) for discretionary projects under the California Environmental Quality Act (CEQA):

Provides that the lead agency, not the various responsible agencies, is required to prepare and approve an EIR or negative declaration.

Provides for the lead agency to decide, within 45 days, whether an EIR or a negative declaration is required and to consult with all responsible agencies in making this decision.

If an EIR is required, the lead agency must consult with all responsible agencies to determine the scope and content of the information which these responsible agencies required in the EIR. Forty-five days is allowed for this consultation.

Extends to all public agencies, as opposed to only local agencies, the requirement that lead agencies must consider the project as a whole and must approve or disapprove it on that basis, while a responsible agency is required to consider only that portion of a project over which it has jurisdiction; now, therefore, be it

RESOLVED, That this Board of Supervisors of the City and County of San Francisco endorses the enactment of AB 884; and, be it
